

Cantor Fitzgerald Government Money Market Fund

Annual Report | April 30, 2024

Cantor Fitzgerald Government Money Market Fund

June 18, 2024

Dear Shareholder,

We present you with the annual report for the Cantor Fitzgerald Government Money Market Fund (the “Fund”) for the period from commencement of operations on January 16, 2024, to April 30, 2024 (the “reporting period”). The fund is a “feeder fund,” investing all of its assets in a “master fund,” namely Government Master Fund. Portions of the discussion below cover the master fund’s entire fiscal year ended April 30, 2024 (“fiscal year”), and not just the three and a half months since the fund commenced operations.

Performance

The US Federal Reserve (the “Fed”) raised the federal funds rate twice during the 12-months ended April 30, 2024, with the last hike in July 2023 pushing it to a range between 5.25% and 5.50%. The federal funds rate or the “fed funds rate,” is the rate US banks charge one another for funds they borrow on an overnight basis. (For more details on the Fed’s actions, see below.) As a result, the yields on short-term investments moved higher.

The seven-day current yield for Investor Shares of the Fund as of April 30, 2024 was 5.08%. The seven-day current yield for Institutional Shares of the Fund as of April 30, 2024 was 5.20%. (Yields in both cases are after fee waivers/expense reimbursements. For more information on the Fund’s performance, refer to “Yields and characteristics at a glance” on pages 4 and 5.)

An interview with Portfolio Manager Robert Sabatino

Q. How would you describe the economic environment during the fiscal year?

A. Despite several headwinds, the US economy continued to expand during the fiscal year. Persistent inflation, monetary tightening, and several geopolitical issues were some of the challenges facing the economy. Despite these factors, the economy was resilient. Looking back, second and third quarter 2023 US annualized gross domestic product (“GDP”) growth was 2.1% and 4.9%, respectively. GDP then expanded 3.4% during the fourth quarter of the year. The Commerce Department’s preliminary estimate for first quarter 2024 annualized GDP growth was 1.6%.

Q. How did the Fed react to the economic environment?

A. With US inflation remaining persistent, the Fed continued to raise the federal funds rate during the first half of the fiscal year. From March 2022 (prior to the beginning of the fiscal year) through July 2023, the Fed raised rates 11 times—pushing the federal funds rate to a range between 5.25% and 5.50%—the highest level in 22 years. Since that time, the central bank kept rates on hold and investors have pushed back the expected timing for when the Fed may start lowering rates.

Q. How did you position the Fund over the reporting period?

A. The Fund is a “feeder fund,” investing all of its assets in a “master fund,” namely Government Master Fund. We tactically adjusted Government Master Fund’s weighted average maturity (“WAM”)—which is the weighted average maturity of the securities in its portfolio—throughout the reporting period. The Fund’s WAM at period end on April 30, 2024, was 35 days.

Q. What types of securities did the Government Master Fund emphasize?

A. Over the fiscal year, we significantly increased the Government Master Fund’s exposure to US Treasury obligations. Conversely, we meaningfully reduced its allocation to repurchase agreements and, to a lesser extent, US government agency obligations. (Repurchase agreements are transactions that require the seller of a security to buy it back at a predetermined time and price, or upon demand.)

Cantor Fitzgerald Government Money Market Fund

Investment goal:

Maximum current income consistent with liquidity and the preservation of capital.

Portfolio Managers:

Robert Sabatino
David J. Walczak
UBS Asset Management (Americas) LLC

Commencement:

January 16, 2024 (Investor Shares)
March 25, 2024 (Institutional Shares)

Dividend payments:

Monthly

Cantor Fitzgerald Government Money Market Fund

Q. What factors do you believe will affect the Fund over the coming months?

A. We continue to closely monitor the economic environment. With inflation currently higher than the Fed's 2% target, it is unclear when the central bank may begin cutting rates. Against this backdrop, we expect to continue managing the Fund with a focus on risk and liquidity.

We thank you for your continued support and welcome any comments or questions you may have. For additional information on the Fund,* please contact your Cantor Fitzgerald representative, or visit www.cantormmf.com.

Sincerely,

Mark E. Carver

This letter is intended to assist shareholders in understanding how the Fund performed during its initial period ended April 30, 2024. The views and opinions in the letter were current as of June 18, 2024. They are not guarantees of future performance or investment results and should not be taken as investment advice. Investment decisions reflect a variety of factors, and we reserve the right to change our views about individual securities, sectors and markets at any time. As a result, the views expressed should not be relied upon as a forecast of the Fund's future investment intent. We encourage you to consult your financial advisor regarding your personal investment program.

* Mutual funds are sold by prospectus only. You should read it carefully and consider a fund's investment objectives, risks, charges, expenses and other important information contained in the prospectus before investing. A prospectus for the Fund can be obtained from your Cantor Fitzgerald representative, by calling 855-9-CANTOR / 855-922-6867, or by visiting the Website at www.cantormmf.com.

Cantor Fitzgerald Government Money Market Fund

Understanding your Fund's expenses¹ (unaudited)

As a shareholder of the Fund, you incur ongoing costs, including management fees, service fees (non-12b-1 fees-Investor Shares only) and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds. Since the Fund is a "feeder fund" that invests in a corresponding "master fund," the expense information below reflects the combined effect of the two levels of expenses and not just those imposed directly at the feeder fund level.

The example below is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period, January 16, 2024 (for Investor Shares) or March 25, 2024 (for Institutional Shares) to April 30, 2024.

Actual expenses

The first line in the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over a period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses paid during period" to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The second line in the table below provides information about hypothetical account values and hypothetical expenses based on a share class's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the share class's actual return. The hypothetical account values and expenses may not be used to estimate your actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs. Therefore, the second line in the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds, if those other funds impose transactional costs—for example, exchange fees. In addition, if those transactional costs were included, your costs for those other funds would have been higher.

The examples do not reflect Resource Management Account® (RMA®) Program, Business Services Account BSA® Program or other program fees as these are external to the Fund and relate to those programs.

	Beginning account value January 16, 2024	Ending account value April 30, 2024 ²	Expenses paid during period 01/16/24 to 04/30/24 ³	Expense ratio during the period
Investor Shares⁴				
Actual	\$1,000.00	\$1,013.20	\$0.87	0.30%
Hypothetical (5% annual return before expenses)	1,000.00	1,023.37	1.51	0.30
Institutional Shares⁵				
Actual	\$1,000.00	\$1,005.30	\$0.18	0.18%
Hypothetical (5% annual return before expenses)	1,000.00	1,023.97	0.91	0.18

¹ The expenses for the Fund reflects the expenses of the corresponding master fund in which it invests in addition to its own direct expenses.

² "Actual—Ending account value" may or may not be reflective of a shareholder's actual investment experience during periods of very low interest rates. While the Fund declares dividends daily and pays them monthly, the amounts are rounded to the nearest \$0.01 on a daily basis with respect to each investor's account. As a result, investors whose Fund account balances earn daily dividends that total less than one half a cent on any given day will not accrue any dividends on that day.

³ Expenses are equal to the Fund's annualized net expense ratio, multiplied by the average account value over the period, multiplied by 181 divided by 365 (to reflect the one-half year period).

⁴ Investor Shares commenced operations on January 16, 2024. Expenses are equal to the share class's annualized net expense ratio, multiplied by the average account value over the period, multiplied by 106 divided by 366 (to reflect the inception period from January 16, 2024 to April 30, 2024). Hypothetical expenses are equal to the share class's annualized net expense ratio, multiplied by the average account value over the period, multiplied by 182 divided by 366 (to reflect the one-half year period).

⁵ Institutional Shares commenced operations on March 25, 2024. Expenses are equal to the share class's annualized net expense ratio, multiplied by the average account value over the period, multiplied by 37 divided by 366 (to reflect the inception period from March 25, 2024 to April 30, 2024). Hypothetical expenses are equal to the share class's annualized net expense ratio, multiplied by the average account value over the period, multiplied by 182 divided by 366 (to reflect the one-half year period).

Financial highlights

Selected data for a share of beneficial interest outstanding throughout each year is presented below:

Investor Shares

	For the period from January 16, 2024 ¹ to April 30, 2024
Net asset value, beginning of period	\$1.00
Net investment income (loss)	0.013
Net increase (decrease) from operations	0.013
Dividends from net investment income	(0.013)
Total dividends and distributions	(0.013)
Net asset value, end of period	\$1.00
Total investment return²	1.32%
Ratios to average net assets:	
Expenses before fee waivers and/or expense reimbursements ³	1.43% ⁴
Expenses after fee waivers and/or expense reimbursements ³	0.30% ⁴
Net investment income (loss) ³	5.09% ⁴
Supplemental data:	
Net assets, end of period (000's)	\$15,000

Institutional Shares

	For the period from March 25, 2024 ¹ to April 30, 2024
Net asset value, beginning of period	\$1.00
Net investment income (loss)	0.005
Net increase (decrease) from operations	0.005
Dividends from net investment income	(0.005)
Total dividends and distributions	(0.005)
Net asset value, end of period	\$1.00
Total investment return²	0.53%
Ratios to average net assets:	
Expenses before fee waivers and/or expense reimbursements ³	0.31% ⁴
Expenses after fee waivers and/or expense reimbursements ³	0.18% ⁴
Net investment income (loss) ³	5.21% ⁴
Supplemental data:	
Net assets, end of period (000's)	\$317,001

¹ Commencement of operations.

² Total investment return is calculated assuming a \$10,000 investment on the first day of each year reported, reinvestment of all dividends and other distributions, if any, at net asset value on the payable dates, and a sale at net asset value on the last day of each year reported. Returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions.

³ Ratios include the Fund's share of income, expenses and expense waivers allocated from the Master Fund.

⁴ Annualized

Cantor Fitzgerald Government Money Market Fund

Notes to financial statements

Organization and significant accounting policies

Cantor Fitzgerald Government Money Market Fund (“Cantor Fitzgerald Government Fund” or the “Fund”) is registered with the US Securities and Exchange Commission (“SEC”) under the Investment Company Act of 1940, as amended (“1940 Act”), as a diversified series of UBS Series Funds (the “Trust”), an open-end management investment company organized as a Delaware statutory trust on April 29, 1998. The Trust is a series mutual fund with seventeen series. The financial statements for the other series of the Trust are not included herein.

Cantor Fitzgerald Government Fund is a “feeder fund” that invests substantially all of its assets in a “master fund”—Government Master Fund (the “Master Fund”, a diversified series of Master Trust, an open-end investment company registered with the SEC under the 1940 Act). The feeder fund and its respective Master Fund have the same investment objectives. Cantor Fitzgerald Government Fund Investor Shares and Institutional Shares commenced operations on January 16, 2024, and March 25, 2024, respectively.

UBS Asset Management (Americas) LLC (“UBS AM”) is the investment advisor and administrator for the Master Fund and the administrator for the Fund. UBS Asset Management (US) Inc. (“UBS AM—US”) serves as principal underwriter for the Fund. UBS AM and UBS AM—US are indirect wholly owned subsidiaries of UBS Group AG. UBS Group AG is an internationally diversified organization with headquarters in Zurich, Switzerland. UBS Group AG operates in many areas of the financial services industry.

The performance of the Fund is directly affected by the performance of the Master Fund. The value of such investment reflects the Fund’s proportionate interest in the net assets of the Master Fund (1.43% at April 30, 2024).

All of the net investment income and realized and unrealized gains and losses from investment activities of the Master Fund are allocated pro rata, based on respective ownership interests, among the Fund and other investors in the Master Fund (e.g., other feeder funds) at the time of such determination. The financial statements of the Master Fund, including the Portfolio of investments, are included elsewhere in this report and should be read in connection with the Fund’s financial statements. The Trust accounts separately for the assets, liabilities and operations of each series. Expenses directly attributable to each series are charged to that series’ operations; expenses which are applicable to all series are allocated among them on a pro rata basis.

In the normal course of business, the Fund may enter into contracts that contain a variety of representations that provide indemnification for certain liabilities. The Fund’s maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. However, the Fund has not had any prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

The Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) is the exclusive reference of authoritative US generally accepted accounting principles (“US GAAP”) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the SEC under authority of federal laws are also sources of authoritative US GAAP for SEC registrants. The Fund’s financial statements are prepared in accordance with US GAAP, which may require the use of management estimates and assumptions. Actual results could differ from those estimates.

The following is a summary of significant accounting policies:

Valuation of investments—The Fund records its investment in the Master Fund at fair value. Securities held by the Master Fund are valued as indicated in the Master Fund’s Notes to financial statements, which are included elsewhere in this report.

Constant net asset value per share—Cantor Fitzgerald Government Fund attempts to maintain a stable net asset value of \$1.00 per share. There is no assurance, however, that the Fund will be able to maintain a stable net asset

Cantor Fitzgerald Government Money Market Fund

Notes to financial statements

value of \$1.00 per share. The Fund and the Master Fund have adopted certain investment, portfolio valuation and dividend/distribution policies in an attempt to enable the Fund to do so. Cantor Fitzgerald Government Fund and the Master Fund have each adopted a policy to operate as a “government money market fund”. Under Rule 2a-7 of the 1940 Act, a “government money market fund” invests 99.5% or more of its total assets in cash, government securities, and/or repurchase agreements that are collateralized fully (i.e., collateralized by cash and/or government securities) (either directly or through a related master portfolio). As a “government money market fund”, Cantor Fitzgerald Government Fund is permitted to seek to maintain a stable price per share.

Liquidity fee and/or redemption gates—By operating as a “government money market fund”, Cantor Fitzgerald Government Fund is exempt from requirements that permit the imposition of a liquidity fee and/or temporary redemption gates. While the Fund’s Board of Trustees (the “Board”) may elect to subject Cantor Fitzgerald Government Fund to liquidity fee and gate requirements in the future, the Board has not elected to do so at this time.

Dividends and distributions—Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends from investment income and distributions from realized capital gains and/or return of capital are determined in accordance with US federal income tax regulations, which may differ from US GAAP. These “book/tax” differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal tax-basis treatment; temporary differences do not require reclassification.

Concentration of risk—The ability of the issuers of the debt securities held by the Fund to meet its obligations may be affected by economic, political and other developments particular to a specific industry, country, state or region.

Deferred offering costs—Offering costs consist primarily of legal fees and other costs incurred with Fund’s share offerings, the preparation of the Fund’s registration statement, and registration fees. Deferred offering costs are amortized over a period of 12 months.

Administrator

UBS AM serves as administrator to the Fund pursuant to an Administration Agreement approved by the Trust’s board. In accordance with the Administration Agreement, the Fund pays UBS AM an administration fee, which is accrued daily and paid monthly, at the below annual rate, as a percentage of the Fund’s average daily net assets:

Fund	Administration fee
Cantor Fitzgerald Government Money Market Fund	0.08%

At April 30, 2024, UBS AM owes the Fund \$19,135 for expense reimbursements.

The Fund and UBS Asset Management (Americas) LLC (“UBS AM”), the Fund’s administrator, have entered into a written fee waiver/expense reimbursement agreement pursuant to which UBS AM is contractually obligated to waive its fees and/or reimburse the Fund so that the Fund’s operating expenses through March 22, 2025 (excluding interest expense, if any, expenses related to shareholders’ meetings and extraordinary items) would not exceed 0.30% for Investor Shares and 0.18% for Institutional Shares.

At April 30, 2024, the Fund had remaining fee waivers/expense reimbursements subject to repayment to UBS AM and respective date of expiration as follows:

Fund	Fee waivers/ expense reimbursements subject to repayment	Expires April 30, 2027
Cantor Fitzgerald Government Money Market Fund—Investor Shares	\$55,084	\$55,084
Cantor Fitzgerald Government Money Market Fund—Institutional Shares	28,324	55,084

Cantor Fitzgerald Government Money Market Fund

Notes to financial statements

Shareholder services plan

UBS AM—US is the principal underwriter and distributor of the Fund's shares. Under the shareholder services plan, UBS AM—US is entitled to a monthly shareholder servicing fee, payable by the Fund, at the below annual rate, as a percentage of the Fund's average daily net assets. UBS AM—US will waive 0.15% of the 0.25% service fee otherwise payable by the Investor Shares of the Fund through March 22, 2025.

Fund	Shareholder servicing fee
Cantor Fitzgerald Government Money Market Fund	0.25%

At April 30, 2024, the Fund owed UBS AM—US \$1,229 for shareholder servicing fees.

Shares of beneficial interest

There is an unlimited amount of \$0.001 par value shares of beneficial interest authorized. Transactions in shares of beneficial interest, at \$1.00 per share, were as follows:

Investor Shares

	For the period from January 16, 2024 ¹ to April 30, 2024
Shares Sold	\$ 789,002,000
Shares repurchased	(774,002,005)
Dividends Reinvested	5
Net increase (decrease) in shares outstanding	\$ 15,000,000

Institutional Shares

	For the period from March 25, 2024 ¹ to April 30, 2024
Shares Sold	\$ 4,497,001,008
Shares repurchased	(4,180,000,000)
Dividends Reinvested	1
Net increase (decrease) in shares outstanding	\$ 317,001,009

¹ Commencement of operations.

Federal tax status

The Fund intends to distribute substantially all of its income and to comply with the other requirements of the Internal Revenue Code applicable to regulated investment companies. Accordingly, no provision for federal income taxes is required. In addition, by distributing during each calendar year substantially all of its net investment income, net realized capital gains and certain other amounts, if any, the Fund intends not to be subject to a federal excise tax.

The tax character of distributions paid during the fiscal year ended April 30, 2024 were as follows:

Fund	2024		Total distributions paid
	Distributions paid from ordinary income	Distributions paid from net long-term capital gains	
Cantor Fitzgerald Government Money Market Fund	\$1,384,440	\$—	\$1,384,440

Cantor Fitzgerald Government Money Market Fund

Notes to financial statements

At April 30, 2024, the components of accumulated earnings (deficit) on a tax basis were as follows:

Fund	Undistributed ordinary income	Undistributed long-term capital gains	Accumulated realized capital and other losses	Unrealized appreciation (depreciation)	Other temporary differences	Total
Cantor Fitzgerald Government Money Market Fund	\$587,519	\$—	\$—	\$—	\$(587,519)	\$—

Net capital losses recognized by the Fund may be carried forward indefinitely, and retain their character as short-term and/or long-term losses. These carryforwards are available as a reduction, to the extent provided in the regulations, of future realized capital gains. To the extent that such losses are used to offset future net realized capital gains, it is probable these gains will not be distributed. As of April 30, 2024, the Fund had no net capital loss carryforward.

ASC 740-10 "Income Taxes—Overall" sets forth a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken. The Fund has conducted an analysis and concluded as of April 30, 2024, that there are no significant uncertain tax positions taken or expected to be taken that would require recognition in the financial statements. The Fund recognizes interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statement of operations. During the period ended April 30, 2024, the Fund did not incur any interest or penalties.

Since inception the Fund remains subject to examination by the Internal Revenue Service and state taxing authorities.

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of Cantor Fitzgerald Government Money Market Fund (the "Fund") (one of the funds constituting UBS Series Funds (the "Trust")), as of April 30, 2024, and the related statement of operations, statements of changes in net assets and the financial highlights for the period from January 16, 2024 (commencement of operations) through April 30, 2024 and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund (one of the funds constituting UBS Series Funds) at April 30, 2024, the results of its operations, changes in its net assets and financial highlights for the period from January 16, 2024 (commencement of operations) through April 30, 2024, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust's internal control over financial reporting. As part of our audit, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion.

Our audit included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

Ernst & Young LLP

We have served as the auditor of one or more UBS investment companies since 1978.

Cantor Fitzgerald Government Money Market Fund

General information (unaudited)

Monthly portfolio holdings disclosure

The Fund and Master Fund file their complete schedules of portfolio holdings with the US Securities and Exchange Commission ("SEC") each month on Form N-MFP. These reports on Form N-MFP are available on the SEC's Website at <http://www.sec.gov>. The Fund and Master Fund make portfolio holdings information available to shareholders on a Website at the following internet address: www.cantormmf.com/documents. Investors also may find additional information about the Fund at the above referenced Website internet address.

Proxy voting policies, procedures and record

You may obtain a description of the Fund's (and corresponding Master Fund's) (1) proxy voting policies, (2) proxy voting procedures and (3) information regarding how a fund voted any proxies related to portfolio securities during the most recent 12-month period ended June 30 for which an SEC filing has been made, without charge, upon request by contacting the Fund directly at 1-800-647 1568, online on the Fund's Website: www.ubs.com/ubsam-proxy, or on the EDGAR Database on the SEC's Website (<http://www.sec.gov>).

Other tax information

Pursuant to Sections 871(k)(1)(C)(i) and 871(k)(2)(C)(i) of the Internal Revenue Code, the Fund designates \$1,384,440 of ordinary income distributions paid as qualified interest income for the fiscal year ended April 30, 2024.

Master Trust

Annual Report | April 30, 2024

- Government Master Fund

Government Master Fund

Understanding a Master Fund's expenses (unaudited)

(Note: The expense information provided in this section is relevant for direct investors in the Master Fund. Investors in the related "feeder funds" should instead focus on separate expense examples relevant to the particular feeder funds; the expense examples for the feeder funds will reflect their proportionate share of the Master Fund's expenses.)

As an owner of a Master Fund, an investor such as a feeder fund incurs ongoing costs, including management fees and other Master Fund expenses. This example is intended to help you understand a Master Fund investor's ongoing costs (in dollars) of investing in a Master Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The example below is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period, November 1, 2023 to April 30, 2024.

Actual expenses

The first line in the table below for the Master Fund provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over a period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses paid during period" to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The second line in the table below for the Master Fund provides information about hypothetical account values and hypothetical expenses based on the Master Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Master Fund's actual return. The hypothetical account values and expenses may not be used to estimate your actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Master Fund and other funds. To do so, compare these 5% hypothetical examples with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs. Therefore, the second line in the table for the Master Fund is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds, if those other funds impose transactional costs—for example, exchange fees. In addition, if those transactional costs were included, your costs for those other funds would have been higher.

	Beginning account value November 1, 2023	Ending account value April 30, 2024	Expenses paid during period 11/01/23 to 04/30/24 ¹	Expense ratio during the period
Actual	\$1,000.00	\$1,000.00	\$0.50	0.10%
Hypothetical (5% annual return before expenses)	1,000.00	1,024.37	0.50	0.10

¹ Expenses are equal to the Master Fund's annualized net expense ratio, multiplied by the average account value over the period, multiplied by 182 divided by 366 (to reflect the one-half year period).

Government Master Fund

Characteristics

Weighted average maturity ¹	35 days
--	---------

Portfolio composition

U.S. Treasury obligations	57.3%
Repurchase agreements	35.1
U.S. government agency obligations	8.0
Liabilities in excess of other assets	(0.4)
Total	100.0%

You could lose money by investing in a money market fund. Although Government Master Fund seeks to preserve the value of your investment so that the shares of each related feeder fund are at \$1.00 per share, Government Master Fund cannot guarantee it will do so. An investment in a money market fund is not insured or guaranteed by the Federal Deposit Insurance Corporation ("FDIC") or any other government agency. A money market fund's sponsor has no legal obligation to provide financial support to a money market fund, and you should not expect that the fund's sponsor will provide financial support to a money market fund at any time.

Not FDIC insured. May lose value. No bank guarantee.

¹ The Master Fund's portfolio is actively managed and its weighted average maturity will differ over time.

² Weightings represent percentages of the Master Fund's net assets as of the date indicated. The Master Fund's portfolio is actively managed and its composition will vary over time.

Fair valuation summary

The following is a summary of the fair valuations according to the inputs used as of April 30, 2024 in valuing the Master Fund's investments. In the event the Master Fund holds investments for which fair value is measured using the NAV per share practical expedient (or its equivalent), a separate column will be added to the fair value hierarchy table; this is intended to permit reconciliation to the amounts presented in the Portfolio of investments:

Description	Unadjusted quoted prices in active markets for identical investments (Level 1)	Other significant observable inputs (Level 2)	Unobservable inputs (Level 3)	Total
Assets				
U.S. government agency obligations	\$—	\$ 1,871,501,197	\$—	\$ 1,871,501,197
U.S. Treasury obligations	—	13,357,379,023	—	13,357,379,023
Repurchase agreements	—	8,188,000,000	—	8,188,000,000
Total	\$—	\$23,416,880,220	\$—	\$23,416,880,220

At April 30, 2024, there were no transfers in or out of Level 3.

Portfolio footnotes

- ¹ Floating or variable rate securities. The rates disclosed are as of April 30, 2024. For securities based on a published reference rate and spread, the reference rate and spread are indicated within the description. Variable rate securities with a floor or ceiling feature are disclosed at the inherent rate, where applicable. Certain variable rate securities are not based on a published reference rate and spread, but are determined by the issuer or agent and are based on current market conditions; these securities do not indicate a reference rate and spread in the description.
- ² Rates shown reflect yield at April 30, 2024.
- ³ Investment has a put feature, which allows the Fund to accelerate the maturity, and a variable or floating rate. The interest rate shown is the current rate as of April 30, 2024 and changes periodically. The maturity date reflects the earliest put date and the proceeds represent the receivable of the Fund if the put feature was exercised as of April 30, 2024.

Financial highlights

Selected financial data throughout each year is presented below:

	Years ended April 30,				
	2024	2023	2022	2021	2020
Ratios to average net assets:					
Expenses before fee waivers	0.10%	0.10%	0.10%	0.10%	0.10%
Expenses after fee waivers	0.10%	0.04%	0.06%	0.10%	0.10%
Net investment income (loss)	5.25%	3.78%	0.02%	0.09%	1.75%
Supplemental data:					
Total investment return ¹	5.39%	3.14%	0.03%	0.08%	1.74%
Net assets, end of year (000's)	\$23,323,471	\$19,234,965	\$4,297,678	\$8,822,693	\$17,762,675

¹ The total investment return for the Master Fund is calculated using geometric average return. The Master Fund issues ownership interests, rather than shares, to the feeder funds. Individual investors invest only into the feeder funds. Feeder fund total investment return is calculated as described within the feeder fund financial highlights and may differ from geometric average return of the Master Fund.

See accompanying notes to financial statements.

Government Master Fund

Notes to financial statements

Organization and significant accounting policies

Government Master Fund (the "Master Fund") is registered with the US Securities and Exchange Commission ("SEC") under the Investment Company Act of 1940, as amended ("1940 Act"), as a diversified series of Master Trust, an open-end management investment company organized as a Delaware statutory trust on June 12, 2007. Government Master Fund commenced operations on June 24, 2016.

UBS Asset Management (Americas) LLC ("UBS AM") is the investment advisor and administrator for the Master Funds. UBS AM is an indirect wholly owned subsidiary of UBS Group AG. UBS Group AG is an internationally diversified organization with headquarters in Zurich, Switzerland. UBS Group AG operates in many areas of the financial services industry.

Master Trust accounts separately for the assets, liabilities and operations of each series. Expenses directly attributable to each series are charged to that series' operations; expenses which are applicable to all series are allocated among them on a pro rata basis.

In the normal course of business, the Master Fund may enter into contracts that contain a variety of representations that provide indemnification for certain liabilities. The Master Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Master Fund that have not yet occurred. However, the Master Fund has not had any prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") is the exclusive reference of authoritative US generally accepted accounting principles ("US GAAP") recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the SEC under authority of federal laws are also sources of authoritative US GAAP for SEC registrants. The Master Fund's financial statements are prepared in accordance with US GAAP, which may require the use of management estimates and assumptions. Actual results could differ from those estimates.

The following is a summary of significant accounting policies:

Valuation of investments

Under Rule 2a-7 under the 1940 Act, as amended ("Rule 2a-7"), Government Master Fund has adopted a policy to operate as a "government money market fund". Under Rule 2a-7, a "government money market fund" invests 99.5% or more of its total assets in cash, government securities, and/or repurchase agreements that are collateralized fully (i.e., collateralized by cash and/or government securities). As a "government money market fund", Government Master Fund values its investments at amortized cost unless UBS AM, as the valuation designee appointed by Master Trust's Board of Trustees (the "Board") pursuant to Rule 2a-5 under the 1940 Act determines that this does not represent fair value. Periodic review and monitoring of the valuation of securities held by Government Master Fund is performed in an effort to ensure that amortized cost approximates market value.

The Board has designated UBS AM as the valuation designee pursuant to Rule 2a-5 under the 1940 Act and delegated to UBS AM the responsibility for making fair value determinations with respect to portfolio holdings. UBS AM, as the valuation designee, is responsible for periodically assessing any material risks associated with the determination of the fair value of investments; establishing and applying fair value methodologies; testing the appropriateness of fair value methodologies; and overseeing and evaluating third-party pricing services. UBS AM has the Equities, Fixed Income, and Multi-Asset Valuation Committee (the "VC") to assist with its designated responsibilities as valuation designee with respect to the Master Fund's portfolio of investments. The types of investments for which such fair value pricing may be necessary include, but are not limited to: investments of an issuer that has entered into a restructuring; fixed-income investments that have gone into default and for which there is no current market value quotation; Section 4(a)(2) commercial paper; investments that are restricted as to transfer or resale; illiquid invest-

Government Master Fund

Notes to financial statements

ments; and investments for which the prices or values available do not, in the judgment of the VC, represent current market value. The need to fair value the Master Fund's portfolio of investments may also result from low trading volume in foreign markets or thinly traded investments. Various factors may be reviewed in order to make a good faith determination of an investment's fair value. These factors include, but are not limited to, fundamental analytical data relating to the investment; the nature and duration of restrictions on disposition of the investment; and the evaluation of forces which influence the market in which the investments are purchased and sold.

The Master Fund's portfolio holdings may also consist of shares of other investment companies in which the Master Fund invests. The value of each such open-end investment company will generally be its net asset value at the time a Master Fund's beneficial interests are priced. Pursuant to the Master Fund's use of the practical expedient within ASC Topic 820, investments in non-registered investment companies and/or investments in investment companies without publicly published prices are also valued at the daily net asset value. Each investment company generally values investments in a manner as described in that investment company's prospectus or similar documents.

US GAAP requires disclosure regarding the various inputs that are used in determining the value of the Master Fund's investments. These inputs are summarized into the three broad levels listed below:

Level 1—Unadjusted quoted prices in active markets for identical investments.

Level 2—Other significant observable inputs, including but not limited to, quoted prices for similar investments, interest rates, prepayment speeds and credit risks.

Level 3—Unobservable inputs inclusive of the Master Fund's own assumptions in determining the fair value of investments.

A fair value hierarchy table has been included near the end of the Master Fund's Portfolio of investments.

Liquidity fee—By operating as a "government money market fund", Government Master Fund is exempt from requirements that permit the imposition of a liquidity fee. While the Board may elect to subject Government Master Fund to liquidity fee requirements in the future, the Board has not elected to do so at this time.

Repurchase agreements—The Master Fund may purchase securities or other obligations from a bank or securities dealer (or its affiliate), subject to the seller's agreement to repurchase them at an agreed upon date (or upon demand) and price. The Master Fund maintains custody of the underlying obligations prior to their repurchase, either through its regular custodian or through a special "tri-party" custodian or sub-custodian that maintains a separate account for both the Master Fund and its counterparty. The underlying collateral is valued daily in an effort to ensure that the value, including accrued interest, is at least equal to the repurchase price.

Repurchase agreements carry certain risks not associated with direct investments in securities, including a possible decline in the market value of the underlying obligations. If their value becomes less than the repurchase price, plus any agreed-upon additional amount, the counterparty must provide additional collateral so that the collateral is at least equal to the repurchase price plus any agreed-upon additional amount. The difference between the total amount to be received upon repurchase of the obligations and the price that was paid by a fund upon acquisition is accrued as interest and included in its net investment income. In the event of default of the obligation to repurchase, the Master Fund generally has the right to liquidate the collateral and apply the proceeds in satisfaction of the obligation. Repurchase agreements secured by obligations that are not eligible for direct investment under Rule 2a-7 or a fund's investment strategies and limitations may require the Master Fund to promptly dispose of such collateral if the seller or guarantor becomes insolvent. If the seller (or seller's guarantor, if any) becomes insolvent, the Master Fund may suffer delays, costs and possible losses in connection with the disposition or retention of the collateral. Under certain circumstances, in the event of default or bankruptcy by the other party to the agreement,

Government Master Fund

Notes to financial statements

realization and/or retention of the collateral may be subject to legal proceedings. The Master Fund intends to enter into repurchase agreements only in transactions with counterparties believed by UBS AM to present minimal credit risk.

The Master Fund may participate in joint repurchase agreement transactions with other funds managed or advised by UBS AM. The Master Fund may engage in repurchase agreements as part of normal investing strategies.

Under certain circumstances, the Master Fund may engage in a repurchase agreement transaction with a yield of zero in order to invest cash amounts remaining in its portfolio at the end of the day in order to avoid having the Master Fund potentially exposed to a fee for uninvested cash held in a business account at a bank.

Investment transactions and investment income—Investment transactions are recorded on the trade date. Realized gains and losses from investment transactions are calculated using the identified cost method. Interest income is recorded on an accrual basis. Discounts are accreted and premiums are amortized as adjustments to interest income and the identified cost of investments.

Concentration of risk—The ability of the issuers of the debt securities held by the Master Fund to meet its obligations may be affected by economic, political and other developments particular to a specific industry, country, state or region.

Investment advisor and administrator

UBS AM serves as the investment advisor and administrator to the Master Fund pursuant to an investment advisory and administration contract (“Management Contract”) approved by the Board. In accordance with the Management Contract, the Master Fund pays UBS AM an investment advisory and administration fee (“management fee”), which is accrued daily and paid monthly, at the below annual rates, as a percentage of the Master Fund’s average daily net assets:

Average daily net assets	Annual rate
Up to \$30 billion	0.1000%
In excess of \$30 billion up to \$40 billion	0.0975
In excess of \$40 billion up to \$50 billion	0.0950
In excess of \$50 billion up to \$60 billion	0.0925
Over \$60 billion	0.0900

At April 30, 2024, the Master Fund owed UBS AM for investment advisory and administration services, net of waivers (if any), as follows:

Fund	Net amount owed to UBS AM
Government Master Fund	\$1,885,888

In exchange for these fees, UBS AM has agreed to bear all of the Master Fund’s expenses other than taxes, extraordinary costs and the cost of securities purchased and sold by the Master Fund, including any transaction costs. Although UBS AM is not obligated to pay the fees and expenses of the Master Fund’s independent trustees, it is contractually obligated to reduce its management fee in an amount equal to those fees and expenses. UBS AM estimates that these fees and expenses will be 0.01% or less of the Master Fund’s average daily net assets. At April 30, 2024, UBS AM did not owe the Master Fund any additional reductions in management fees for independent trustees’ fees and expenses.

Government Master Fund

Notes to financial statements

In addition, UBS AM may voluntarily undertake to waive fees. This additional undertaking is voluntary and not contractual and may be terminated at any time. During the period ended April 30, 2024, the Master Fund did not incur this additional waiver.

Beneficial interest transactions

Government Master Fund

	For the years ended April 30,	
	2024	2023
Contributions	\$ 56,516,921,636	\$ 52,020,553,397
Withdrawals	(53,478,330,715)	(37,503,596,338)
Net increase (decrease) in beneficial interest	\$ 3,038,590,921	\$ 14,516,957,059

Federal tax status

Government Master Fund is considered a non-publicly traded partnership for federal income tax purposes under the Internal Revenue Code; therefore, no federal tax provision is necessary. As such, each investor in the Master Fund is treated as owning its proportionate share of the net assets, income, expenses, and realized and unrealized gains and losses of the Master Fund. UBS AM intends that the Master Fund's assets, income and distributions will be managed in such a way that an investor in the Master Fund will be able to continue to qualify as a regulated investment company by investing its net assets through the Master Fund.

ASC 740-10 "Income Taxes—Overall" sets forth a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken. The Master Fund has conducted an analysis and concluded, as of April 30, 2024, that there are no significant uncertain tax positions taken or expected to be taken that would require recognition in the financial statements. The Master Fund recognizes interest and penalties, if any, related to uncertain tax positions as income tax expense in the statement of operations. During the period ended April 30, 2024, the Master Fund did not incur any interest or penalties.

Each of the tax years in the four year period ended April 30, 2024, remains subject to examination by the Internal Revenue Service and state taxing authorities.

Government Master Fund

Report of independent registered public accounting firm

To the Interestholders and the Board of Trustees of Government Master Fund

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of Government Master Fund (the "Fund") (one of the funds constituting Master Trust (the "Trust")), including the portfolio of investments, as of April 30, 2024, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund (one of the funds constituting Master Trust) at April 30, 2024, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and its financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust's internal control over financial reporting. As part of our audit, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion.

Our audit included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of April 30, 2024, by correspondence with the custodian and brokers; when replies were not received from brokers, we performed other auditing procedures. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

The signature of Ernst & Young LLP is written in a cursive, handwritten style in black ink.

We have served as the auditor of one or more UBS investment companies since 1978.

General information (unaudited)

Monthly portfolio holdings disclosure

The Master Fund files its complete schedule of portfolio holdings with the US Securities and Exchange Commission ("SEC") each month on Form N-MFP. The Master Fund's reports on Form N-MFP are available on the SEC's Web site at <http://www.sec.gov>. The Master Fund makes portfolio holdings information available to interestholders (and investors in the related feeder funds) on UBS's Web site at the following internet address: www.ubs.com/usmoneymarketfunds. Investors also may find additional information about the Master Fund at the above referenced UBS Web site internet address.

Proxy voting policies, procedures and record

You may obtain a description of the Master Fund's (1) proxy voting policies, (2) proxy voting procedures and (3) information regarding how the Master Fund voted any proxies related to portfolio securities during the most recent 12-month period ended June 30 for which an SEC filing has been made, without charge, upon request by contacting the Master Fund directly at 1-800-647 1568, online on the Fund's Web site: www.ubs.com/ubsam-proxy, or on the EDGAR Database on the SEC's Web site (<http://www.sec.gov>).

Government Master Fund

Board approval of management contract (unaudited)

At a meeting of the board of Master Trust (the "Trust") on February 21, 2024, the members of the board, including the trustees who are not "interested persons" of the Trust (the "Independent Trustees") as defined in the Investment Company Act of 1940, as amended, considered the approval of the novation and restatement of the management contract between UBS Asset Management (Americas) Inc. ("UBS AM") and the Trust (the "Management Contract").

Management discussed with the board its proposal to reorganize UBS AM from a Delaware corporation to a Delaware limited liability company and to change its name to UBS Asset Management (Americas) LLC. Management stated that UBS AM is proposing that the Management Contract be novated and restated at the time of the closing of the reorganization to reflect UBS AM's new name and form of organization. UBS AM represented, and the board considered, that there was expected to be no change to: (i) the advisory fee or any other amounts to be paid by the Trust; (ii) the nature, extent, and quality of the services to be provided by UBS AM; (iii) fund performance; (iv) the costs of the services to be provided and profits to be realized by UBS AM and its affiliates from the relationship with the Trust; or (v) the realization of economies of scale as the Trust grows; or (vi) any other benefits derived or to be derived by UBS AM from the relationship with the Trust.

The board, including a majority of the Independent Trustees, approved the novation and restatement of the Management Contract. No single factor considered by the board was identified by the board as the principal factor in determining whether to approve the novation and restatement of the Management Contract. The Independent Trustees were advised by separate independent legal counsel throughout the process.
